NATIONAL SEMINAR

on

Prevention and Control of Non-Communicable Diseases

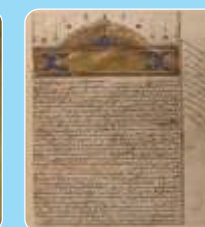

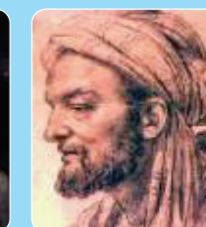

16th & 17th December, 2019

Organized by

Department of Tahaffuzi wa Samaji Tib

National Institute of Unani Medicine

Sponsored by : Ministry of AYUSH, Govt. of India

Dear Fellows,

It’s our pleasure to invite you all to the two days National seminar on 16th &17th December 2019, to be organized by Department of *Tahaffuzi wa Samaji Tib*, National Institute of Unani Medicine, Bengaluru.

The theme of the seminar is “***Prevention and Control of Non-Communicable Diseases***” aptly highlighting the important role to be played by Unani medicine in combating the threat posed by emerging epidemic of NCDs. The seminar will have dedicated sessions on basic understanding of NCDs in Unani Medicine, guiding tools for the identification of population at risk, Life course approaches, Nutritional and community based interventions for the control of NCDs.

The core purpose of the event is to provide a platform for exploring and transforming the knowledge of Unani Medicine to develop working models for countering the menace to society posed by NCDs and improving the health and wellbeing of society at large.

The program is structured to invite the experts of Unani Medicine and allied health sciences to share their informative and thought provoking views on the subject.

Organizing committee cordially invite the Unani fraternity and scholars of allied health sciences to be part of this seminar.

With Warm Regards,

Dr. Zarnigar
Organizing Secretary

Prof. Abdul Wadud
Organising Chairman

About NIUM

National Institute of Unani Medicine (NIUM) Bengaluru situated in the city of gardens is an autonomous organization under the Ministry of AYUSH, Government of India. This Institute is being developed as a model of post graduate teaching, training and research in Unani System of Medicine. The Institute offers post graduate courses in ten disciplines and started Ph. D course in Moalajat and Ilmul Advia. The Institute hospital has an OPD wing and 180 bed IPD. Clinical services are provided to the patients from general and specialty OPDs. Though the hospital provides Unani treatment, it is also equipped with state of art diagnostic laboratories. Hospital provides health care facilities to every section of society. The quality of research is maintained by various committees like Ethics committees for clinical and preclinical studies. Scientific advisory groups look after planning, and coordination of research work for fundamental research, clinical research, drug development and quality control. The institute publishes two biannual Journals, namely “Journal of Research in Unani Medicine” in English and “Tarjuman-e-Tibb” in Urdu. Under the guidance of Ministry of AYUSH, Govt. of India, the Institute is trying its best to achieve the targets and providing specialized health care facilities to the public and also aims at becoming a centre of excellence in Unani academics, research and patient care.

About the Department

Department of Tahaffuzi wa Samaji Tib was established with the objective of developing skilled and motivated public health professionals. The department is deeply committed to train the next generation of leaders in public health through class room instructions, seminars, journal clubs and field work. Department is dedicated to promoting health across the lifespan of people in all segments of population through research, education and training, community outreach services and health promotion campaigns. Major thrust of the department is on harnessing the potential of Unani system of medicine in promotive and preventive health care services through research and training. Department on regular basis organizes health awareness programmes, health camps for school children, screening camps, mobile clinics and adopted five colonies to provide health care services to the community. Apart from this, department is also providing services to the community through Health promotive unit and IEC unit in NIUM hospital. Department is consistently working towards discovery of new knowledge in domain of public health and is eminently geared for its forward journey towards academic excellence.
